Occasional User

Coding Help Focus

Recommended Primary Model

Quick tasks

Haiku

- Syntax checks
- Short Q&A
- Quick fixes

Best for you

Sonnet

- Coding projects
- Resume writing
- Concept learning

Deep work only

Opus

- Hard algorithms
- Architecture
- Capstone work

Why Sonnet Fits You

Coding help

Handles full functions, debug sessions & code review — not just snippets.

Resume writing

Polished, professional tone for cover letters, bullet points & summaries.

Occasional use

Powerful enough that every session counts, fast enough to not waste time.

Effort Level Guide

Low

Syntax lookups, quick definitions, error messages.

Standard

Most coding tasks, resume drafts, concept explanations.

High

Multi-file projects, interview prep, debugging complex code.

Max

Capstone projects, algorithm design, portfolio architecture.

Personalized Workflow Table

Task	Model	Effort	Why
Quick syntax / error fix	Haiku	Low	No deep reasoning needed
Write a function from scratch	Sonnet	Standard	Needs logic + quality thinking
Debug tricky code	Sonnet	High	Multi-step reasoning catches more
Understand a new concept	Sonnet	Standard	Good explanations with examples
Data structures & algorithms	Opus	High	Rigorous, careful reasoning
Resume bullet points	Sonnet	Standard	Polished professional language
Cover letter / personal summary	Sonnet	High	Nuanced tone & differentiation
Portfolio / project writeup	Sonnet	High	Structured, impressive output
Capstone / complex project	Opus	Max	Maximum depth for hard tradeoffs
Interview coding practice	Sonnet	High	Hints, walkthroughs & feedback
